INFERRED REQUIREMENT, REQUIRES BUSINESS VALIDATION

> As a site visitor, I want to see and use the Anchor List: In-page navigation to section anchors, optionally sticky, so that I get the information or action it offers on any device.

Attribute	Value
Story ID	US-F-E03-15-02
Parent feature	F-E03-15 Anchor List
Priority	To be confirmed
Preconditions	Code deployed to the environment; author access for authoring stories
Main flow	1. Open a page with the block 2. Use it with mouse, touch or keyboard
Alternate flows	Keyboard-only and touch use
Exception flows	A dependency (sheet, index, media) fails: fallback text or empty state
Business rules	Block README: Content and Asset Guidelines
Analytics events	Component shown / clicked (data layer)
Accessibility acceptance criteria	Keyboard reachable, named controls, alt text, visible focus
Responsive acceptance criteria	No horizontal overflow at 375, 768, 1024, 1440 px
SEO acceptance criteria	Heading order kept
Localization acceptance criteria	UI text from placeholders
Security/privacy acceptance criteria	No personal data in the data layer

Attribute	Value
Dependencies	blocks/anchor-list
Assumptions	Derived from the implementation
Out of scope	Back-end integrations not implemented (Tags, forms back end)
Related code	blocks/anchor-list/
Related block-library example	https://main--tcs-corp--sradha-tcs.aem.live/design-block-master/en/block-library/anchor-list
Related curated page	/design-block-master/en/curated-design-pages/case-study, /design-block-master/en/curated-design-pages/story

Definition of Ready / Done	See the BA package

1. Gherkin acceptance criteria

```
Feature: Anchor List

Scenario: Anchor List renders on its block library page
  Given a published page with the block
  When wait for the page to load
  Then the page answers 200, every example renders, no console error, no failed request

Scenario: Anchor List meets WCAG 2.1 AA
  Given a published page with the block
  When run a screen reader on the block
  Then every control is reachable and named; no heading level is skipped; images have alt text or are
decorative

Scenario: Anchor List at 375, 768, 1024 and 1440 px
  Given a published page with the block
  When open the block library page at each width
  Then no horizontal overflow; layout follows the responsive rules of the readme

Scenario: Anchor List when a dependency fails (sheet, index, media)
  Given a published page with the block
  When reload
  Then the block shows its english fallback or empty state and the page keeps working
```

2. Screenshots

No screenshot belongs to this document (it describes code, configuration or process). Evidence screenshots are listed in the screenshot register.

3. Known limitations

- None recorded for this document.

4. Open items

- None.

5. Change history
