INFERRED REQUIREMENT, REQUIRES BUSINESS VALIDATION

> As a content author, I want to choose the Video's variations (Inline or pop-up, autoplay / loop options), so that the block matches the design of each page.

Attribute	Value
Story ID	US-F-E04-01-03
Parent feature	F-E04-01 Video
Priority	To be confirmed
Preconditions	Code deployed to the environment; author access for authoring stories
Main flow	1. Select the block 2. Change the variation options 3. Preview
Alternate flows	Keyboard-only and touch use
Exception flows	A dependency (sheet, index, media) fails: fallback text or empty state
Business rules	Block README: Content and Asset Guidelines
Analytics events	Component shown / clicked (data layer)
Accessibility acceptance criteria	Keyboard reachable, named controls, alt text, visible focus
Responsive acceptance criteria	No horizontal overflow at 375, 768, 1024, 1440 px
SEO acceptance criteria	Heading order kept

Attribute	Value
Localization acceptance criteria	UI text from placeholders
Security/privacy acceptance criteria	No personal data in the data layer
Dependencies	blocks/video
Assumptions	Derived from the implementation
Out of scope	Back-end integrations not implemented (Tags, forms back end)
Related code	blocks/video/

Definition of Ready / Done	See the BA package

1. Gherkin acceptance criteria

```
Feature: Video

Scenario: Video: each choice of "Playback" gives its presentation
  Given a published page with the block
  When preview after each change
  Then the rendering matches the variation (class or attribute click, autoplay, background)

Scenario: Video: each choice of "Aspect Ratio" gives its presentation
  Given a published page with the block
  When preview after each change
  Then the rendering matches the variation (class or attribute 16-9, 4-3, 1-1, 21-9, 9-16)

Scenario: Video: each choice of "Size" gives its presentation
  Given a published page with the block
  When preview after each change
  Then the rendering matches the variation (class or attribute full, large, medium, small)

Scenario: Video: each choice of "Alignment" gives its presentation
  Given a published page with the block
  When preview after each change
  Then the rendering matches the variation (class or attribute center, left, right)
```

2. Screenshots

No screenshot belongs to this document (it describes code, configuration or process). Evidence screenshots are listed in the screenshot register.

3. Known limitations

- None recorded for this document.

4. Open items

- None.

5. Change history
