Keyboard, focus order, contrast and screen reader checks: Not Run (AB-05). Block library pages show several examples of the same block, so some findings (duplicate ids, several H1) are expected on them.

3. Screenshots

No screenshot belongs to this document (it describes code, configuration or process). Evidence screenshots are listed in the screenshot register.

4. Known limitations

- None recorded for this document.

5. Open items

- None.

6. Change history

2. Blocks without a block library page

- `button-block`
- `column-break`
- `image-collage`
- `media-contacts`
- `tab`
- `tcs-header`

3. Supported class options not shown in the block library (10)

Block	Component	Field	Option	Value
hero	hero	Icon color	Black	`icon-black`
hero	hero	Icon color	White	`icon-white`
hero	hero	Eyebrow color	Royal blue	`eyebrow-royal-blue`
hero	hero	Title color	Black	`title-black`

Block	Component	Field	Option	Value
hero	hero	Title color	White	`title-white`
hero	hero	Description color	Black	`description-black`
hero	hero	Description color	White	`description-white`
tab	tab	Columns per row	1	`per-row-1`
tab	tab	Columns per row	3	`per-row-3`
tab	tab	Columns per row	4	`per-row-4`

4. Not reviewed

The Universal Editor configuration of the examples (dialog values, Additional tab) couldn't be compared (AB-01).

The pages of the block folders are shown in each block's test coverage document; the pages below (animation, foundations, templates, the index) belong to no block folder.

The hero above: Animation Type **Fade up**, Motion Speed **Slow**, Animation Trigger **On Page Load** and Background animation **Reveal from the centre**: it plays as the page opens. **Motion Speed** sets how fast a block's animations run (Fast 0.3 s, Medium 0.6 s, Slow 0.9 s; the background takes 1.5 times as long). **Animation Trigger** sets when: *On Scroll* when the block comes into view (at once if it is in view when the page opens), *On Page Load* as soon as the block is ready, wherever it is. Both appear in the Additional tab once an animation is chosen.

Animation Type: Fade up · Motion Speed: Fast (0.3 s) · Animation Trigger: On Scroll

Insights

Fade up, Fast (0.3 s)

Organisations that connect their data across functions make faster, better decisions. Our research shows how leaders in banking, retail and manufacturing build that advantage.

BANKING EUROPE

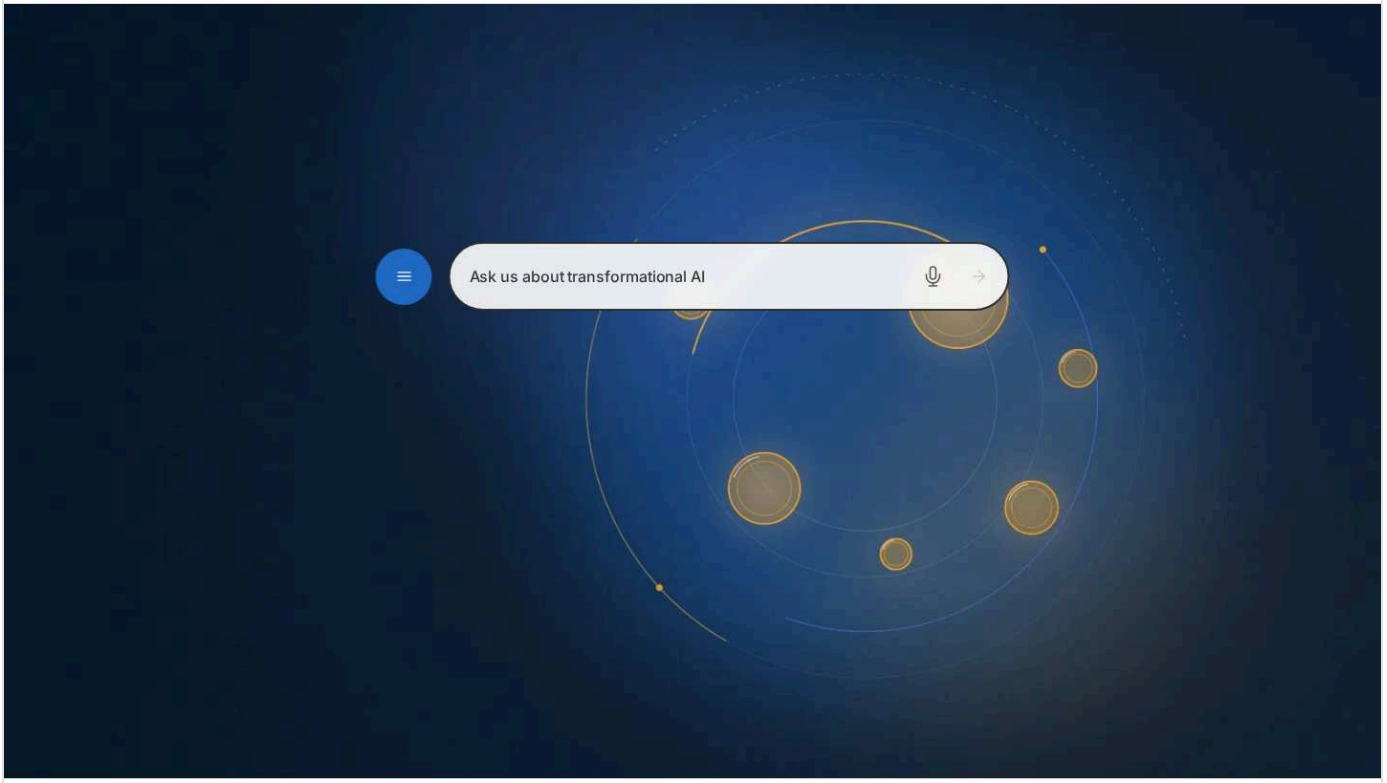

Article template

Article template: a block library page of the Templates block.

Retail banks have automated individual tasks for decades. The next step is different: systems that plan, decide and act across a whole customer journey, with people setting the goals and the guardrails.

From automation to autonomy

Agentic operations combine process knowledge, data and AI models that can call the bank's own services. Early adopters start with well-bounded journeys such as card disputes and mortgage document checks.

What it means for operating models

Teams move from processing cases to supervising outcomes. Controls, audit trails and clear escalation paths become part of the product, not an afterthought.

Related AEM paths	—

1. Checks run in this program

Check	Result
`npm run lint`	Passed (exit 0) on feature/keyword-action (PR #218)
`npm test`	394 of 396 passed, 2 failed: the 2 Form Variations motion tests (failing on main since the model change of 27 October)
`npm run build:json`	Passed; the Keywords field description of PR #218 committed
`npm run build:docs`	Passed; no change to the committed files
`node docs/handover/knowledge-base/validate-knowledge-base.mjs`	Passed (34 pages, nothing missing or failing)
`node capture.mjs (documentation program)`	8 November 2026: Completed: 200 pages, 800 screenshots
`node analyze-links.mjs (documentation program)`	8 November 2026: Completed for the three roots
`perf.mjs (documentation program)`	8 November 2026: Before PR #203: index done after 18.4 s (24 requests, 1.37 MB); after: 2.9 s (9 parallel requests, 0.87 MB) on /language-masters/en, 1.1 s (1 request) on /design-block-master/en

Generated documentation is current when `build:json` and `build:docs` leave the working tree unchanged: yes (no change).

2. Carried validation matrix (knowledge base)

3. Screenshots

No screenshot belongs to this document (it describes code, configuration or process). Evidence screenshots are listed in the screenshot register.

Page	Blocks	Console errors	Failed requests	Empty lists	H1	Images without alt
who-we-are	15	12	12	0	3	0

2. Links of /design-block-master/en

Measure	Value
Pages analysed	335
Links by target	to /language-master/en: 1281; unmapped AEM path: 380; external: 20; own root: 15; locale or other: 7; dam: 35
Links to pages that aren't published	7
Unmapped AEM paths	/content/tcs-corp/design-block-master/english: 358; /content/campaigns: 1; /content/dam: 2; /content/2026: 2; /content/tcs-corp/language-master: 1; /content/aem-eds-xwalk: 1; /content/cq:i18n: 15
Links to another root	/design-block-master/en -> /language-master/en: 1281

The curated and block library pages were copied from the testing root: their links still point to `/language-master/en`, and links written as `/content/tcs-corp/design-block-master/english/...` don't resolve (the root's page is `en`). Correct them on the author (search and replace of the two prefixes by `/content/tcs-corp/design-block-master/en`).

3. Identical compositions

- /design-block-master/en/curated-design-pages/forms/ar-landing, /design-block-master/en/curated-design-pages/forms/csr, /design-block-master/en/curated-design-pages/forms/csr-form, /design-block-master/en/curated-design-pages/forms/global-contact-us, /design-block-master/en/curated-design-pages/forms/inquizitive, /design-block-master/en/curated-design-pages/forms/talk-to-an-expert-retail, /design-block-master/en/curated-design-pages/forms/website-feedback-form: form-variations

4. Screenshots

No screenshot belongs to this document (it describes code, configuration or process). Evidence screenshots are listed in the screenshot register.

5. Known limitations

- None recorded for this document.

6. Open items

1. Query index (measured 8 November 2026, Chromium, live site)

Page	Before (shared index)	After (per-root index, PR #203)
Migrated press release (/language-masters/en)	24 sequential requests, 1.37 MB, done after 18.4 s	9 requests (parallel), 0.87 MB, done after 2.9 s
Curated home (/design-block-master/en)	the same 24 requests	1 request, 14 KB, done after 1.1 s

The shared /query-index.json still holds the review roots' 11,821 rows (no locale content is published, so no locale page reads it today); it drops them when the pages are removed from it.

2. PageSpeed

Not Run in this program (AB-04). Target: PageSpeed 100 (AGENTS.md). Page heights captured at 1440 px range from 900 to 18143 px.

3. Screenshots

No screenshot belongs to this document (it describes code, configuration or process). Evidence screenshots are listed in the screenshot register.

4. Known limitations

- None recorded for this document.

5. Open items
